Learning outcomes & description

DESCRIPTION

The aim of this module is to provide learners with basic knowledge on Country of Origin Information (COI), its relevance and limitations in the context of international protection, including focusing on quality standards applied in the COI research cycle.

This module focuses on the categories and formulation of appropriate COI questions, as well as, on the examination of the most frequently used COI Sources and source assessment.

LEARNING OUTCOMES

At the end of this module, the learner will be able to:

Knowledge

1. Identify the role of COI and its quality standards in the context of international protection
2. Identify the legal concepts for which COI research should be conducted, when dealing with an international protection claim

Skill

3. Apply the relevant quality standards when dealing with Country of Origin Information Questions

Competence

4. Assess the validity of COI sources in the context of international protection

DELIVERY METHOD

The module uses a blended learning approach. It features interactive elements such as animations, voiceovers, and scenarios to engage learners in COI research and source assessment.

ASSESSMENT STRATEGY

The assessment includes multiple-choice questions, a case scenario on legal concepts and COI questions, and a source validity assessment.
