Learning outcomes & description

DESCRIPTION

This module aims to provide learners with knowledge and skills related to one of the EUAA’s data collection mechanisms – Surveys to understand asylum-related migration (also called: SAM project).

It covers the background and purpose of the surveys, how the surveys enhance situational awareness, inform policymaking and how they can be applied in practice.

LEARNING OUTCOMES

At the end of this module, the learner will be able to:

Knowledge

1. **Describe the SAM project, including its components, aims, and connection with the EUAA's mandate.**

2. **Explain the methodology and principles applied to the SAM project, including questionnaire structure and data collection platforms.**

Skills

3. **Promote and disseminate the SAM project effectively, addressing challenges and identifying appropriate mitigating measures.**

DELIVERY METHOD

This module is delivered entirely online, through self-paced learning.

Details

	Details
Duration	**2 hours online learning (self-paced)**
